## BOLD AND BRAVE

Sometimes courage is loud like an elephant, and sometimes it's quiet like a llama.

Lily, a young autistic girl with a vivid imagination, wants to sing the solo in the school's choir show, but the thought of standing at center stage turns her heart a gloomy grey. School is overwhelming enough. Now all eyes will be on her, and she can't wear the red polka dots she needs to be bold and brave.

*Bold and Brave's* whimsical illustrations draw readers into Lily's experience, while inspiring them to be bold and brave. It's aimed at readers aged 4 to 8.

## PRAISE FOR BOLD AND BRAVE

*"I think that this story would be great to read to young children through school age. The theme or message of the story is one that all ages can learn from."*

—Ashlee, Goodreads Reviewer

*"For autistic kids, this is wonderful representation, and for non-autistic kids, this normalizes and teaches them about something that may be different from what they're used to. Fantastic book for everyone!"*

—Kerri, Netgalley Reviewer
